Elaboration Process

Catalpa Pinot Noir comes from a single vineyard located in the Uco Valley's Tupungato area, one of the best wine-growing regions within Mendoza, Argentina. The vineyard is located at 4,430 feet high, enjoying a privileged sun exposure and cool temperatures that allow the grapes to have a perfect ripening. The grapes are hand picked and selected in a sorting table. Temperature controlled fermentation takes place in stainless steel tanks. About 40% of the wine is aged in new French oak barrels for 12 months. The rest stays in stainless steel tanks and is blended again with the oak aged portion before bottling.
